## For Chakra Protection and Balance

Dear God, I acknowledge: *With You all things are possible.* Therefore I come boldly with this prayer for Chakra Protection and Balance.

May You be pleased permanently to protect me from influences and energies that would weaken me, physically, financially, emotionally, mentally, or spiritually, including all such originated by me.

Clear all such influences and energies from my charkas now, and continue to clear all that I encounter, or originate, in the future.

May you always, and immediately, block these influences and energies from entering my charkas, transmuting them to harmlessness and purity, and thereby protecting me, and all others who could be affected by them.

Always *close* my charkas to influences and energies that could weaken me and open them to receive such as are beneficial to me.

By Your graces, protect me physically, financially, emotionally, mentally, and spiritually, always, while keeping my charkas cleared, energized and linked, and wholly available to Divine intervention and the reception of Life Force.

Help me to have only pure, positive thoughts at all times.

Thank you, God. Thank you.

Now, and forever, thank you God.

Amen
