## **ULTIMATE MATRIX** by NUTRIBIOTIC

**Ultimate Matrix** is a food supplement that is made by placing vitamins and minerals in cold water with spirulina and then exposing them, for twenty four hours, to ultra-violet light. The vitamins, minerals, and spirulina become a food matrix recognizable to the body!

When you take pure, crystalline vitamins and minerals, your body sees something it would never encounter in nature, whether those substances come from natural sources or are synthesized. If you are severely deficient, your body will work hard to make use of those materials. Otherwise, it will see them as foreign substances and throw them off. That's where the term "expensive urine" comes from.

The nutrients in **ULTIMATE MATRIX** are seen by your cells as living food. Those nutrients look friendly. Your body doesn't try to get rid of them. It accepts them. That's the function of the spirulina in **ULTIMATE MATRIX**. It is a food molecule that the body will accept. It's **bioavailable** like any other real food.

Spirulina was chosen because Spirulina is the

most perfect food nature has to offer. It's nature's highest protein food, at 62%, and loaded with natural vitamins, minerals, and antioxidants.

Scientific studies show that spirulina supports a healthy immune system, contributes to healthy cholesterol levels and supports cellular health at multiple places in your body. Spirulina has everything--proteins, lipids, glycoproteins, lipoproteins, nucleoproteins, complex carbohydrates, phytopigments, flavonoids, antioxidants, fatty acids, enzymes, coenzymes and fiber. Spirulina is called a "superfood."

To that true superfood are bound 101 scientifically balanced nutrients, creating what may be the most remarkable nutritional molecule ever known. It delivers "biochemical precision" to human cells.

**ULTIMATE MATRIX** is 100% vegetarian and free of yeast, soy, milk, wheat and corn. **Your body will love it.**

*Summary of information provided by NUTRIBIOTIC*

### **Why I Use Ultimate Matrix**

**I need the vitamins. I need the minerals. They make me feel good.**

*Once I became sensitive to energies I found it unwise to take any multi-vitamin. All of them felt toxic to me. But then, early in 2000, **Ultimate Matrix** appeared on the market. From my perspective it was both non-toxic and energetically alive. It has an **alkaline pH** of 7.2. It has simplified my life: Three tablets give me the vitamins and minerals I need; I can take them with or without food; **They also help balance my pH.** They make me feel good!*
